OBJECTIVE

To build a successful career in the field of web development and graphic design, where I can utilize my creative and technical skills in projects like front-end development, WordPress customization, and visual design. I am self - self-motivated and hardworking individual aiming for a position that offers opportunities to grow, learn, and contribute meaningfully to innovative projects

EDUCATION

B.Sc. Computer Science   **2018-2021**
Andhra University

Intermediate MPC   **2016-2018**
Vivekanandha College

PROJECTS

to-do list & weather report & calculator

- I developed a JavaScript To-Do List and weather report projects,
- which strengthened my front-end development knowledge, especially in DOM manipulation. and strengthened my understanding of frontend functionality.

Buggy Food App

- I also worked on a WordPress Buggy Project, where I resolved site bugs and customized layout and features

Zalva Fashion

- Designed a complete fashion brand identity in Adobe Illustrator for Zalva Fashions.
- which improved my design thinking and creative execution

SRENGTHS

- Clean and visually appealing layout
- Demonstrates technical and design skills (JavaScript, WordPress, Illustrator, Photoshop)
- I am a self-motivated and hardworking individual
